This agreement is being executed as of the _____ day of _____, 20____, between City of Rocky River, a municipal corporation [e.g. corporation, limited liability corporation, etc.] having its principal office at 21012 Hilliard Boulevard, Rocky River, Ohio 44116

("Client"), and LJB Inc., an Ohio corporation having its principal office at 2500 Newmark Drive, Miamisburg, Ohio 45342 ("LJB"), under the following circumstances:

- A. Client desires to engage LJB to assist in rendering services in connection with a project as set forth on Schedule 1 attached hereto.

Now, therefore, Client and LJB agree as follows:

1. Compensation for services.

- (a) For the services provided by LJB, LJB will bill Client, and Client will pay LJB, as shown on Schedule 1 attached hereto. - 2. Terms and Conditions: The terms and conditions attached hereto are hereby incorporated into this Agreement.

In witness whereof, Client and LJB have executed this agreement as of the day and year first written above.

1. Client's Responsibilities

- 1.1. **Client Representative.** Client shall designate in writing a representative authorized to act on behalf of Client with respect to the Project and the services rendered by LJB. Such representative shall have authority to transmit instructions, receive information, grant approvals, and take such other action as may be necessary to avoid unreasonable delay in the progress of the performance of LJB's services.
- 1.2. **Client's Requirements.** Client shall provide full written information regarding Client's requirements for the Project, including design objectives and restraints, schedule, space requirements and relationships, flexibility, expandability, special equipment, systems and site requirements. Client will furnish to LJB copies of all design and construction standards, which Client will require to be included in drawings and specifications prepared by LJB.
- 1.3. **Ancillary Services.** Client will furnish to LJB, or allow LJB to obtain at Client's expense, such ancillary professional and other services as may be necessary or appropriate to proper performance of LJB's services and completion of the Project., Such ancillary services may include, without limitation thereto, those relating to environmental investigation and analysis; traffic flow and control; investigation of subsurface conditions; investigation of surface and subsurface water flow and the impact of the Project thereon; and surveying activities and preparation of property descriptions. Client agrees and acknowledges that such services may entail Client entering into an agreement with any such service provider (e.g. Drilling and Environmental Addendum), and in the event that Client refuses to do so, LJB may terminate this agreement. It shall be the Client's responsibility, together with the ancillary service provider, to ascertain the location of all utilities and other subsurface structures. In the event LJB is asked by Client or the ancillary service provider to mark any drawing or other document for drilling or other subsurface exploration purposes, Client acknowledges that such markings are only general guides. Therefore, it is the Client's responsibility, together with the ancillary service provider, to ascertain the exact location of the drilling or other subsurface exploration site that will not adversely impact any utility line or other subsurface structure.
- 1.4. **Access to Site.** Client shall secure rights of access for LJB to all property reasonably necessary to the performance of LJB's services.
- 1.5. **Governmental Permits and Approvals.** Client shall obtain (with LJB's assistance if so indicated in the description of LJB's services) all such governmental and regulatory permits and approvals as may be necessary for completion of the Project.
- 1.6. **Coordination.** Client shall effectively and efficiently coordinate the activities of Client, LJB, Architects, Contractors and others involved in the Project.
- 1.7. **Reliance Upon Client Information.** LJB shall have the right to rely upon any and all information supplied to LJB by or through Client, and LJB shall not have a duty to verify the accuracy of such information unless otherwise agreed in writing. Client shall hold harmless, indemnify and defend LJB as to any claims, liabilities or expenses related, directly or indirectly to LJB's use of or reliance upon such information.

1.8. **Timely Performance.** Client shall discharge its responsibilities, as set forth herein and as otherwise agreed, in a timely manner so as not to delay the services of LJB.

2. **LJB's Responsibilities**

- 2.1. **Time of Performance.** LJB will use its best efforts to complete its services in accordance with the mutually agreed upon schedule and to coordinate its services with other parties involved in the Project so as not to cause delay or interference with the work of such other parties. If Client requests modifications or changes in the scope or extent of LJB's services, the time of performance of such services shall be appropriately adjusted.
- 2.2. **Additional Services.** Services not expressly included within the description of the services to be rendered by LJB are not covered by this Agreement. In the event Client desires additional services and LJB is willing to provide such services, the parties shall execute a supplement to this Agreement describing such services and setting forth LJB's compensation for performing such services.
- 2.3. **Standards.** LJB will strive to perform services under this Agreement in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representation, express or implied, and no warranty or guarantee is included or intended in this Agreement, or in any report, opinion, document, or otherwise.
- 2.4. **Insurance.** LJB shall maintain the following insurance at all times during LJB's performance of services for Client and, upon request by Client, provide certification evidencing such insurance; Workers' Compensation and Employer's Liability Insurance in conformity with applicable law for its employees; and Comprehensive General Liability. Any additional insurance for the Project obtained by LJB at Client's request shall be at Client's expense.
- 2.5. **Record Drawings.** Any record drawings to be prepared by LJB will be developed based upon bid specifications and plans as modified by actual construction. Information related to such modifications may be provided by others, including the construction contractors who are to document such modifications as part of their performance. LJB may rely upon such information and is not responsible for the accuracy of such information as it affects the record drawings. Record drawings serve to document substantial alterations between bid plans and actual construction and do not document minor alterations.
- 2.6. **Confidentiality.** LJB shall use reasonable efforts to preserve the confidentiality of any information identified by Client as confidential.
- 2.7. **Construction Services.** LJB is not responsible for the means, methods or sequences of construction or for the safety of workers or others at the construction site. Construction observation services are neither exhaustive nor continuous and consist of periodic visits to the Project site intended only to determine whether construction is in general conformance with the construction contract documents. LJB is not responsible for the performance or nonperformance of any contractor or other third party involved in the Project.
- 2.8. **No Third Party Responsibility.** Except for those subcontractors who contract directly with LJB pursuant to Section 5.5, LJB assumes no duty or responsibility, which may be construed as being for the benefit of, and therefore enforceable by, any contractors or

subcontractors or their bonding companies. It is understood that LJB's obligations are solely to Client.

3. Compensation

- 3.1. **Progress Payments.** Client will be invoiced at the end of the first calendar month following the effective date of this Agreement and at the end of each calendar month thereafter. Such invoices shall reflect billing for work performed and Reimbursable Expenses incurred by LJB during the month involved. Payment of an invoice is due upon receipt of the invoice by Client. In the event of a dispute regarding an invoice, Client shall pay all undisputed amounts pending resolution of the dispute.
- 3.1.a The City of Fairview Park will reimburse Client (the City of Rocky River) for 17% of each invoice.
- 3.2. **Reimbursable Expenses.** Reimbursable Expenses are expenditures made by LJB, its employees or consultants in the interest of the Project. Reimbursable expenses include, but are not limited to, (i) expense of transportation, subsistence and lodging when traveling in connection with the Project; (ii) expense of long distance telephone charges, messenger service, field office expenses, and fees paid for securing approval of authorities having jurisdiction over the Project; (iii) expense of all reproduction, postage and handling of drawings, specifications, reports and other Project-related instruments of service; and (iv) expense of preparing perspectives, renderings and models.
- 3.3. **Late Payment.** LJB will assess a carrying charge of 1.5% per month on progress payments not made within 30 days of the date of invoice, which charge is payable by Client upon demand. LJB may, in its sole discretion and without notice, suspend or terminate its services in the event Client does not pay any amount invoiced within such 30-day period. LJB reserves the right to withhold from Client any drawings, specifications and other instruments of LJB's service developed for Client pending payment of Client's outstanding indebtedness.
- 3.4. **Estimates.** Estimates of construction cost, cost of LJB services, material quantities, and construction time provided by LJB are estimates only based upon LJB's opinion and are subject to change and are contingent upon factors over which LJB has no control. Except as may be otherwise specifically agreed in writing with respect to the cost of LJB's services, LJB does not guarantee the accuracy of such estimates.
- 3.5. **Changes.** The parties acknowledge that the nature of the Project is such that Client may wish to make changes in the Project. Client may at any time authorize changes in the services provided by LJB, issue additional instructions, request additional services, or direct omission of services previously ordered. After LJB reviews each change request made by Client, LJB shall advise Client in writing as to any necessary and appropriate fee adjustments for LJB's services arising from the change. After LJB receives Client's written authorization to proceed with such changes and Client's written approval of the corresponding fee adjustments, if any, LJB will proceed to implement such changes. LJB shall not be required to make changes to its work that it believes threatens the integrity or safety of such work.
- 3.6. **Other Adjustments.** Except as may be expressly provided otherwise in this Agreement, Client recognizes that LJB's compensation for services during construction contemplates one construction contract being let and construction completion within the time

contemplated by this Agreement. If more than one construction contract is let, or if the period of construction is exceeded through no fault of LJB, LJB's compensation (including any estimate of such compensation) shall be appropriately increased for services rendered in relation to such additional contracts or beyond such time period.

- 3.7. **Serving as Witness or Consultant.** In the event any principal or employee of LJB serves or is required to serve as a witness or consultant for Client in any litigation, arbitration or other legal or administrative proceeding involving the Project, Client shall compensate LJB 200 percent of the standard hourly rates then in effect for hours devoted to giving testimony or providing consultative services and 150 percent of such rates for time devoted to preparation for such testimony or consultation. In addition, Client shall reimburse LJB for all related expenses.

4. **LJB's Liability**

- 4.1. **Limitation on Liability.** LJB's liability to Client which may arise from or be due directly or indirectly to the professional acts, errors and/or omissions, including negligence, of LJB, its agents, employees or consultants shall be limited so as not to exceed the portion of LJB's fees (as indicated in this Agreement) applicable to that segment of LJB's services to which the act, error, omission or negligence relates. If LJB's fees are not broken down by segment in this Agreement, LJB's liability shall not exceed the aggregate fees paid to LJB under this Agreement.

5. **General**

- 5.1. **Ownership of Documents.** All original tracings, notes, data and other documents prepared or furnished by LJB are instruments of professional service and shall be the property of LJB. Such instruments are prepared and intended only for use as an integrated set on the particular project and for the limited purposes specified. Modifications, or use on other projects, of such instruments of service, or copies thereof, without LJB's prior written consent shall be at Client's sole risk. Client shall hold harmless, indemnify and defend LJB as to any and all claims, damages, losses and expenses, including attorney's fees, arising out of any such modification or use.
- 5.2. **Disputes Resolution.** All claims, disputes, and other matters in controversy between LJB and Client arising out of or in any way related to this Agreement will be submitted to "alternative dispute resolution" (ADR) before and as a condition precedent to other remedies provided by law. If and to the extent Client and LJB have agreed on methods for resolving such disputes, then such methods will be set forth in the "Alternative Dispute Resolution Agreement" which, if attached, is incorporated into and made a part of this Agreement. If no specific ADR procedures are set forth in this Agreement, then it shall be understood that the parties shall submit disputes to mediation as a condition precedent to litigation.

If a dispute at law arises from matters related to the services provided under this agreement and that dispute requires litigation instead of ADR as provided above, then:

- 5.2.1. The claim will be brought and tried in judicial jurisdiction of the court of the county where LJB's principal place of business is located and Client waives the right to remove the action to any other county or judicial jurisdiction, and

- 5.2.2. The prevailing party will be entitled to recovery of all reasonable costs incurred, including staff time, court costs, attorneys' fees, and other claim related expenses.
- 5.3. **Termination.** This Agreement may be terminated by Client upon at least seven days written notice to LJB in the event that the Project is permanently abandoned. In the event that either party (the "Defaulting Party") shall breach or fail to comply with any provision of this Agreement and such breach or failure shall continue for a period of seven days after the giving of written notice thereof by the other party, such other party may terminate this Agreement immediately upon the giving of notice of such termination to the Defaulting Party. If this Agreement is terminated through no fault of LJB, Client shall pay LJB for services performed and Reimbursable Expenses incurred in accordance with this Agreement and, upon request, a Termination Adjustment equal to 15% of the estimated fee remaining to be earned at the time of termination to account for LJB's rescheduling adjustments, reassignment of personnel, and related costs due to termination.
- 5.4. **Insolvency of Client.** In the event client becomes involved as a debtor, in any bankruptcy, insolvency, receivership or other similar proceedings, LJB may, at its discretion, suspend performance of its obligations under this Agreement.
- 5.5. **Assignment: Subcontracting.** Neither Client nor LJB shall assign its interest in this Agreement without the written consent of the other, except that LJB may subcontract any portion of its services without such consent.
- 5.6. **Force Majeure.** Any delay or default in the performance of any obligation of either party under this Agreement resulting from any cause(s) beyond such party's reasonable control shall not be deemed a breach of this Agreement. The occurrence of any such event shall suspend the obligations of such party as long as performance is delayed or prevented thereby.
- 5.7. **Attorney's Fees.** In the event of default hereunder, the defaulting party shall pay all costs incurred by the non-defaulting party in enforcing this Agreement, including reasonable attorneys' fees whether incurred in connection with initiation of legal proceedings or otherwise.
- 5.8. **Miscellaneous.** This Agreement shall be interpreted and enforced according to the laws of the State of Ohio as applicable to agreements executed and entirely performed within the State of Ohio. The captioned headings contained in this Agreement are for convenience of reference only and shall in no way affect the meaning or interpretation of this Agreement. The invalidity of any clause or provision of this Agreement shall not affect the validity or enforceability of any other clause or provision contained herein. This Agreement supersedes all prior agreements, arrangements and understandings relating to the subject matter hereof. No oral representation, promise, inducement or statement of intention has been made by either party, which is not embodied in this Agreement or in the other documents delivered pursuant hereto. This Agreement may be amended, modified, superseded or canceled only by a written instrument executed by both parties hereto. The failure of either party at any time or times to require performance of any provision of this Agreement shall in no manner affect the right at a later time to enforce the same. No waiver by either party of the breach of any term contained in this Agreement, whether by conduct or otherwise, shall be deemed to be or construed as a further or continuing waiver of such breach.

**Re: Center Ridge Complete Streets Project (CUY-Center Ridge)
Price Proposal for Engineering Design Services**

Dear Ms. Costello:

LJB Inc. has prepared the following price proposal to develop Construction Documents for the Center Ridge Complete Streets Project. This Proposal reflects the discussions and negotiations that have occurred between the City of Rocky River and LJB since the original proposal was submitted on November 5, 2018. The Project will reduce air pollution by mitigating traffic congestion, promote pedestrian and bike activity by providing safe infrastructure, improve pedestrian safety with new signals and pavement markings, cultivate a healthy transit system waiting environment, and improve vehicular safety at critical locations and throughout the corridor. This proposal is based on the information known on the date of preparation and may be modified to reflect additional data received throughout the project process.

PROJECT UNDERSTANDING

This Project is funded by a combination of CMAQ, TLCI, Rocky River and Fairview Park funds. The City of Rocky River was awarded a Congestion Mitigation Air Quality (CMAQ) grant from NOACA to reduce nitrous oxide and other pollutants by mitigating traffic congestion and improving the safety of pedestrian and bike traffic along the entire length of Center Ridge within the City's corporate limits. The City of Fairview Park was awarded a Transportation for Livable Communities Initiative (TLCI) implementation grant to increase user safety for multimodal transportation systems including vehicles, pedestrians and bikes. Both grants will fund multimodal improvements along Center Ridge between the GCRTA Westgate Transit Center and the intersection at Northview/Linden Roads.

We look forward to working together with Rocky River to achieve the Center Ridge Complete Streets goals to:

- > Reduce air pollution by mitigating traffic congestion
- > Promote pedestrian and bike activity by providing safe infrastructure
- > Improve pedestrian safety with new signals and pavement markings
- > Cultivate a healthy transit system waiting environment
- > Improve vehicular safety at critical locations and throughout the corridor

SCOPE OF SERVICES

The anticipated scope of services for this project includes the following deliverables as defined below.

Preliminary Engineering

Topographic Survey and Right-of-Way

- Center Ridge Road survey limits will extend from the western intersection at the GCRTA Transit Center/Savers store to the eastern intersection at Northview/Linden Roads. Wagar Rd. survey limits will extend from 500 feet north of Center Ridge to 300 feet south of Center Ridge. Northview Road survey limits are from Center Ridge to 150 feet north. Linden Road survey limits are from Center Ridge to 300 feet south.
- Property Owner Notification: All survey work is to be completed within existing public rights of way. No property owner notification or right of entry letters are anticipated.
- Project Control, Benchmarks and Reference Points: Two (2) Type B control monuments will be set at each intersection within the limits of survey shown on the Survey Limits Map. Type A control monuments are not anticipated. The project will be tied to Ohio State Plane Coordinates North Zone, NAD 83 (2011 Adjustment), GEOID 2012A, and NAVD88. A vertical elevation control benchmark loop will be conducted setting benchmarks on each Type B control monument. Three-point ties to centerline control are not anticipated. All project control points set by LJB will be identified with sketches and coordinates in the surveyor's report and are intended to be easily recoverable by the contractor.
- Monumentation Recovery: No new right of way is anticipated for this project. Monumentation reconnaissance will be limited to those existing centerline and right of way monuments that are easily identified in the field. Neither detailed boundary surveys nor existing right of way resolution is to be performed.
- Base Mapping (incl. field verify): Locate topographic features within the project survey limits between back of curb on both sides of the road and between back of sidewalks at the intersections, obtaining horizontal and vertical information. No cross sections will be taken of the pavement. LJB will contact OUPS to request field marking for utilities only at each intersection prior to beginning the survey. LJB will contact utility companies individually to obtain any additional information available to assist the survey team in locating existing utilities. LJB will locate drainage features horizontally and vertically. LJB will locate traffic control features horizontally, including pavement markings, signs, poles, signal boxes and loops, etc. Temporary lane closures are NOT anticipated to complete the pavement survey.
- Establish property lines, tax id, & ownerships on base map: Through GIS & tax map data, LJB will identify approximate property lines in the project limits. Boundary resolution for abutting property is not anticipated.

Transit Waiting Environment (TWE) Improvements

Coordinate with GCRTA to develop improvements at the TWE near Chick-fil-A which may include an upgraded shelter, new site furniture, lighting, trash receptacles, public art, and landscaping. Also discuss safety benefits to traffic, pedestrians and transit riders in relocating the bus stop on Wagar Road just north of Center Ridge to a location further north or possibly eliminating.

Public Involvement

One (1) letter will be written, for issuance by the City, to present the planned improvements to the public. The letter will emphasize that the public comments offered during the planning phase are being implemented and a safer environment will result for all pedestrians, transit riders and vehicular traffic. Comments will be accepted for a period of 30 days after issuance of the letter.

Crash Analysis and Channelization

Investigate crash data and TLCI Planning Study information to determine optimum treatments, including channelization devices and improved pavement markings, for mitigation of traffic incidents occurring on Wagar Road just north of Center Ridge near the Walgreens entrance and also along Center Ridge near Chipotle.

Traffic Counts & Signal Warrant Analyses

Perform 12-hr traffic counts at each of 5 signalized intersections within the limits of the TLCI grant (from West to East):

1. RTA Transit Center/Savers entrance
2. Glenbar
3. W. 210/Wagar
4. Westgate Mall entrance/Forestview
5. Northview/Linden

If authorized, we will also count traffic at the remaining 8 intersections along Center Ridge Road within the corporate limits of Rocky River and the CMAQ grant (from West to East):

1. Spencer
2. Giant Eagle/Honey Baked Ham
3. River Oaks/Westwood Town Center
4. Pease
- 5 TLCI Signalized Intersections itemized above
5. Rockport retail entrance
6. Lakeview
7. Goldengate/Wooster Park
8. Wooster

Following the completion of the traffic count data collection, LJB will perform traffic signal warrant analyses at each of the locations counted.

Page 4

Traffic and Pedestrian Signal Coordination

LJB will plan for signal coordination to be via wireless methods, likely using spread spectrum radio or cellular modems. Signal improvements at the intersections identified above will be limited to new controllers and interconnection equipment in order to provide for coordination. System timings will also be prepared to identify the offset and splits for up to 4 time of day plans.

Alternate Bid Request, if needed

If necessary, submit an alternate bid request in accordance with ODOT TEM, Section 120-7. The alternate bid procedure has been established to permit a local agency to obtain a specific brand, feature or design of traffic control or lighting device for use on a project.

Pavement Markings and Signage

Pavement markings will be shown on the same sheet as Signing, to include:

- Location of pavement edges, number of lanes, lane widths, transitions, raised medians and all structures
- Directional arrows (one per lane) indicating the number of lanes
- Painted gores for merging and diverging roadways and any auxiliary markings
- High-visibility ladder-style crosswalks at Westgate Transit Center, W. 210/Wagar, Westgate Entrance/Forestview, and Northview/Linden intersections.

Inlaid pavement markings will also be studied to determine cost-effectiveness and increased visibility attributes.

Northview/Linden Intersection Improvements

Unique considerations for this intersection may include the installation of landscaped/hardscaped medians and the relocation of crosswalks.

Preliminary Layout

Conceptual layout sheets will be developed to locate the traffic signal features, curb ramps, channelization devices, pavement markings and existing/proposed right-of-way lines and construction limits. LJB will submit this layout to the City for review and approval prior to beginning Final Design. This layout will also be used for environmental clearance documents (completed by ODOT District 12) and for the public involvement meeting. LJB will provide the Preliminary Layout construction plans to all known utilities in the project area and coordinate with the utilities to identify design features to be relocated or removed.

Design Exception Requests, if needed

Submit any Design Exception Request(s) and supporting plan sheets to ODOT District 12, who will review and submit through the Office of Roadway Engineering Services for approval. Design Exception approval is required prior to the next stage submittal.

Construction Cost Estimate

A preliminary construction cost estimate will be accomplished at the conclusion of the Preliminary Engineering phase to determine the probable cost of construction, including a contingency factor to account for undefined items at this stage of plan development. This estimate may be used by Rocky River to determine if elements of the Final Design scope should be increased or decreased.

Perform Airway/Highway clearance analysis

The purpose of an Airway/Highway Clearance Analysis is to determine if a proposed project will encroach into the theoretical approach or traverse surfaces of an airport or heliport. Whenever a project is located within 20,000 feet of a public-use or military airport or heliport, an Airway/Highway Clearance Analysis must be performed. Documentation in accordance with ODOT L&D Volume 3, Section 1404 will be provided. Cleveland-Hopkins International Airport is located approximately 16,000 south of the Project site.

Final Design, Construction Plans & Specifications

Accepted elements of the Preliminary Engineering phase will be advanced through Final Design, resulting in construction plans and specifications to meet City and ODOT standards and requirements. The following sheets are expected to be included in the Construction Plans:

- Title sheet
- Plan sheets
- Notes sheet(s), including maintenance of traffic provisions
- General Summary (all quantities will be itemized and tabulated by funding source)
- Plan Detail sheets for the layout and detail of the channelization hardware
- Intersection details for intersections where curb ramps are being redesigned and channelizing islands are being placed
- Signal plan sheet including feature layout, phase diagram, and detector locations, if these features are impacted in design
- Interconnect Details - Provide any necessary details/notes for interconnected signals. System timings will be included.
- Maintenance of Traffic details will be described in plan notes and will require contractors to follow the Ohio Manual of Uniform Traffic Control Devices (OMUTCD).

Other tasks included in the Final Design phase of work include:

- Prepare FAA Form 7460-1 for Airway/Highway Clearance.
- Update Systems Engineering Analysis for ITS projects
- Preparation of Bid Book
- Final Construction Cost Estimate

Project Management

- **General Oversight** – LJB’s project manager will direct project activities in terms of budget and work planning, schedule and staff assignments. Project management processes will include initiating, planning, monitoring, controlling, and closing out the scope of work. This task also includes budgeting, billing, coordination and communication with Rocky River, and reporting activities throughout the duration of the project.
- LJB’s project manager will be the single point of contact between Rocky River and ODOT and NOACA to assure all communications are properly acted on, tracked and distributed.
- LJB will attend review meetings after each submittal to coordinate review comments and clarify the disposition.

Bidding Phase Services

- Respond to questions raised by bidders and assist City with issuing Addenda, including preparation of any revisions to Construction Documents
- Review Contractor Bids and make recommendation for award

ASSUMPTIONS

In preparing this scope of services, LJB has made the following assumptions:

- LJB intends to accomplish this design without a formal Stage 1 submittal as no horizontal or vertical alignment work is proposed. LJB aims to provide a Preliminary Layout in lieu of Stage 1 that will identify construction limits and utility impacts, and locate all proposed features. Construction plans will be provided at the Final Design submittal.
- LJB believes that a minimum of one-lane of traffic in each direction will be maintained at all times during construction. Maintenance of traffic will be accomplished via notes, a description of the sequence of construction, and reference to the applicable ODOT standard construction drawings.
- The construction of this project is expected to be sold by the City of Rocky River. The Construction Documents will therefore include information necessary for Rocky River to bid the project. LJB will prepare front end bid documents and ODOT LPA provisions if required.
